Logistics Consulting

物流顧問

Our professional consulting team provides customers with tailor-made all rounded consulting services to address each customer's specific needs in Macro Logistics Consulting and Micro Logistics Consulting.

Macro logistics consultancy helps clients look at strategic policy setting at the regional and industry level, and focuses on 'macro' issues like development planning for future logistics strategy of an entire region or feasibility studies on logistics planning and projects.

Micro logistics consultancy mainly focuses on the optimization within an enterprise. Designs, operation and management upgrade, supply chain and logistics workflows are usually the main focused areas. Usual solutions include enhancement of management team, re-engineering of the overall supply chain and logistics processes, procurement workflow design, production logistics optimization, logistics center planning, reorganization of distribution network, etc. We aim at offering practical and best practice solutions that call for genuine improvements.

Our experienced and professional consultants can execute solutions with the client's team to ensure smooth implementation till completion.

針對客戶的特定需求，我們專業的顧問團隊為客戶提供全方位的物流顧問服務，服務包括宏觀物流顧問及微觀物流顧問。

在『宏觀物流』中，研究的是整個地區和大型物流企業的戰略制訂，主要從大方向宏觀角度考慮與處理問題，例如策劃整個地區未來的物流戰略發展規劃，及為物流規劃和項目進行可行性研究等的工作。

『微觀物流』主要是針對個別企業實際供應鏈及物流流程的設計、運作和管理優化。最常見的方案包括企業內部管理提升、整體供應鏈與流程再造、採購流程設計、生產物流優化、物流中心規劃、配送網絡重組等。微觀物流方面，我們強調的是『實施能力』，有關的方案必須具備可操作性。

我們的專家顧問都具備豐富的項目實施經驗，可以和客戶的團隊共同執行有關方案，保證順利完成任務。
