Logistics Engineering

物流工程

With the aim to aid customers by introducing advanced industrial and logistics equipment that is of international standards, we provide turn-key professional and comprehensive services such as design, planning and manufacturing for the warehousing, logistics and production line system of different organizations.

Premium equipment integration and highly effective system installation are important to the smooth operation of various industrial and logistics tasks. Our best practice solutions can bring extra value through the aid of appropriate equipment. Our professional team can customize system solutions according to special requirements. We will sustain to manufacture and introduce suitable equipment to meet a wide range of client's need.

As the expert of racking and storage equipment, we own advanced manufacturing facilities and cutting-edge manufacturing technologies. With powerful production line, we are able to produce racking systems in the quickest time, providing our clients with the most satisfactory service in warehouse equipment and storage system.

Our commitment is to provide the best solutions under customer's budget. For any enquiries regarding the project or equipment about the warehouse and production system, please contact our professionals.

Areas of Expertise:

- Fit-out Solutions
- Design & Build
- Mezzanine Modules
- Pallet Racking & Shelving
- Automatic Warehousing Systems
- Storage Systems
- Material Handling Systems
- Conveyor Systems Design

我們致力於協助客戶引進國際先進水準的工業和物流設備，為不同客戶的倉儲、物流和生產線系統提供設計、規劃、生產及整合的全套專業服務。

我們對客戶的需求深入了解，能夠為客戶推薦各種設備。而我們提供評估和支援的完善服務，以一站式解決規則、安裝及測試系統設備等工序，提供客戶『交鑰匙方案』(Turn-key Solution)。此外，針對客戶的特殊要求，設計和製定適當的系統方案服務。同時，根據客戶的需求，生產和引進更多合適的設備，為客戶節省成本。

作為貨架和倉儲設備製造專家，我們擁有先進的生產設備及尖端的生產技術，自設工廠，擁有強大生產線，並根據客戶不同的要求和條件，以快捷時間為客戶製造高質量的貨架系統，務求讓客戶獲得最合適的倉儲設備系統。

我們的承諾是根據客戶的預算提供最佳實施方案。如有任何查詢，無論是在有關項目或倉庫或生產系統設備，請聯絡我們的專家。

專業範疇：

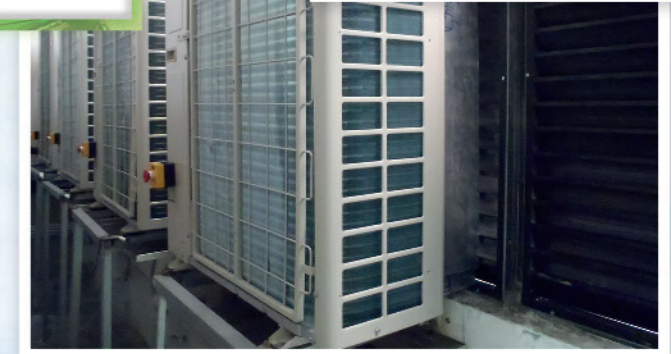

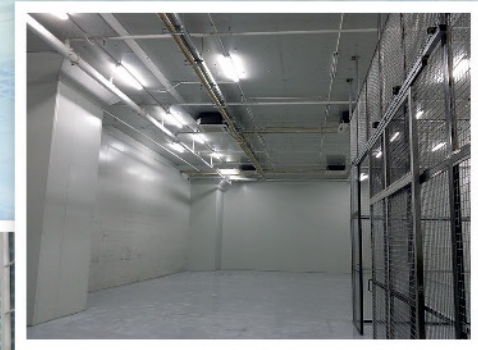

- 物流中心配備方案
- 設計與建設
- 組合貨架閣樓式平台
- 重型托盤式貨架及層架
- 自動倉儲系統
- 儲存系統
- 物流搬運系統
- 物流輸送系統設計
